

Lesson Statement

Participation in lessons at Triangle Volleyball Club with one of our staff members is optional and represents one manner to accomplish volleyball skill development. Lessons, however, should not be viewed as a necessity or as the only effective training method to achieve success on the court.

The following guidelines are in place to provide your child with the environment most conducive to learning and growth:

- Parents are not permitted on court, at any time. There are natural and beneficial breaks that must occur during lessons to clean up the court, move equipment, or get water. Those responsibilities will be handled by the coach and athlete(s).
- Lessons are NOT used by Triangle or its coaching staff as an evaluation tool for tryouts and team selection and will NOT be used to determine an athlete's team placement for next season.
- Triangle staff members given the privilege of conducting lessons are not permitted to discuss potential team placement with student-athletes, parents, or other coaches during the tryout period October 1-November 15.

Any questions regarding our policies related to Lessons should be directed to info@trianglevolleyball.org
